Flat5 White Ave.
Arab Road, Kubwa, Abuja

PROFESSIONAL SUMMARY

Highly analytical and detail-oriented Data Analyst with over 5 years of proven experience in transforming complex, raw data into clear, actionable business insights. Proficient in **SQL, Power BI/Tableau Python, and Excel** for comprehensive data manipulation, visualization, and reporting.

EDUCATION

- Data Science Professional Certificate – IBM

WORK EXPERIENCE

Data Analyst: Statisense

- Collected, cleaned, and analyzed large datasets from diverse sources, ensuring data integrity and accuracy for executive-level reporting.
- Created detailed monthly performance reports using advanced Excel functions (Pivot Tables, VLOOKUPS, Conditional Formatting)
- Wrote and optimized complex SQL queries that reduced data extraction, facilitating rapid-cycle business process analysis.
- Automated recurring weekly reporting tasks using Python (Pandas) and VBA in Excel, saving time used for manual work per week.

Data Analyst Facilitator: Ritetract Consulting

- Mentored students on data science projects and provided guidance on career development
- Collaborated with other faculty members to develop and implement Data Science and Data Analysis curriculum
- Collaborated with data scientists to develop and implement machine learning models

Data Analyst: Argonseal Consulting

- Wrote SQL queries for data extraction, transformation, and performance monitoring
- Developed and implemented data visualizations to communicate insights to non-technical stakeholders using Power BI & Tableau
- Collected, cleaned, validated, and analyzed large datasets for businesses across retail, services, and tech
- Provided data-backed insights that improved client operations and strategic decisions.
